BOEMA

The main benefits of **BOEMA's Caffè Series** range include:

For café owners

- Suitable for businesses with small to medium sized turnover
- Can be used as a backup machine for businesses with high volume periods
- Easily transportable and quick to set
- Perfect for function rooms or alfresco areas.

For offices and businesses

- Less down time for employees
- Saves time and money for everyone
- Staff can make a wide range of hot drinks including all types of espresso coffees, hot chocolates, teas and Chai lattes. See our product range brochure for more details.
- Easy to use and maintain
- Easily transportable from kitchen to boardroom.

The Caffè Series range is available as a 2 group or 1 group machine. Features include:

- Stylish and modern design
- Consistent and smooth milk production
- Stainless steel back
- Quick recovery boiler
- Height adjustable legs with rubber soles
- Main controls in waterproof casing
- Low maintenance and easy access to all working parts.

Only available in Brushed Stainless Steel
