AGCD - Conical Deli Grinder

AGDU - Dosage Unit

Boema is unlike many of the foreign-based coffee companies and is a leader in the Australian coffee industry because:

Australian made

- Boema has been manufacturing traditional commercial coffee machines since 1956 and is privately owned and operated by the Gibbs family

Reliable service

- Boema provide reliable and prompt local, state and international delivery of machine orders and spare parts
- Machine manufacturing and pre-installation is quality controlled
- Boema provide excellent after sales service, training and demonstrations
- Spare parts are available for your machine's lifetime and new improved parts are easily adaptable
- Boema's equipment, service and importantly, spare parts are competitively priced

Stylish design

- Boema machines are stylishly designed and built using commercial grade materials and parts

High performance

- Boema's range of high performance machines are robust, affordable and easy to service
- All Boema machines can be purchased outright or leased.

Other products available

- Coffee machines
- Dripolators
- Filters
- Coffee beans

**Boema Grinders -
the company it keeps**
