

Introducing Maestro...

everything an Italian coffee machine offers plus more...

Built using the latest technology in commercial design, and construction with operational features that will help your business's efficiency, the **BOEMA Maestro** is the only espresso machine on the market that puts the Barista in control. You will consistently produce quality espressos, lattes, mochas, cappuccinos and even a cup of tea* from the new **BOEMA Maestro**.

BOEMA Maestro is an Australian manufactured machine. Since 1956, **BOEMA** have been designing and building coffee machines which stand the test of time.

The availability of parts, if required, are delivered quickly and installed by our trained technicians. Professional training can be arranged for your staff and our friendly team will assist you with any enquiries.
