

The Swiss made Celebration is Schaerer's state of the art coffee machine, combining an innovative design with the latest technological developments.

Reliability. The Celebration will be a source of pleasure for years to come – each of its components is manufactured with care, precision and guarantees the highest quality – both in terms of design and the materials used.

Ease of use and flexibility. The Celebration leaves nothing to be desired, with features and options such as additional grinders, water tank kits, cup warmers, remote diagnosis, invoicing systems, choice of colours and so on. This machine has been designed from the outset to provide café quality coffee with complete simplicity.

A perfect fresh milk solution. The Celebration uses a patented fresh milk solution that unifies the advantages of the previous best two systems on the market. It cools the milk from the reservoir to the foam jet assembly, it is easy to clean and it meets the highest hygienic standards.

Features:

- 240 cup per hour capacity;
- 2 grinders as standard, option of up to 4 grinders;
- programmable LCD selection touch screen;
- choice of colours and materials;
- grinders are separate from boiler and heating elements and grinder motor is clearly separated from grinder compartment – leading to better coffee;
- constant brewing temperature thanks to Schaerer patented booster technology;
- "clone" machine configuration via chip card or laptop pc;
- height adjustable coffee spout (120 mm);
- milk system entirely integrated in a 6.5 litre capacity cooling unit, thus ensuring hygienic conditions. The milk is continuously cooled and then vapour sterilized at the moment of delivery;
- can produce cold milk as well as hot;
- automatic monitoring of the milk supply via milk sensor in the refrigerator;
- temperature indicator for the cooled milk on the display;
- easy cleaning of the machine at the press of a button;
- easily serviced machine and high standard of ergonomics ensuring easy and simple man/machine interface;
- "help mode" on user LCD interface;
- height adjustable hot water spout (100 – 150 mm);
- ready to accept payment systems

Available colours (no additional charge):
 Blue, Black, Bronze, Silver and Yellow.
